

## Europass Curriculum Vitae

### Personal information

First name(s) / Surname(s) **Taulant Ndreka**  
Address **Kurze Gasse 2, Heilbronn, Germany**  
Mobile **+491633897320**  
E-mail(s) **ndrekalanti@gmail.com**  
Nationality **Albanian**  
Date of birth **02/07/2003**  
Gender **Male**

### Education and training

Dates **September 2018 - June 2022**  
Title of qualification awarded **High School Diploma in Information and Communication Technology (ICT)**  
Principal subjects / occupational skills **Proficient in C, C++, and Shell scripting with a basic understanding of HTML, CSS, and JavaScript. Introduction to SQL and database design principles, fundamentals of networking concepts and protocols. Basics of managing IT projects and teamwork skills.**  
Name and type of organisation providing education and training **Herman Gmeiner High School Street Hermann Gmeiner, Tirana, Albania**

### Personal skills and competences

languages

English	Understanding	Listening	Writing
Level	B2	B2	B2

Social skills and competences

- Very friendly, open minded, good networking skills and able to work with other departments to fulfill the goals.
- Ability to convey information clearly and concisely in both verbal and written forms.
- Experience working in diverse groups, promoting teamwork, and fostering a positive environment.
- Ability to adjust to new situations and challenges while maintaining a positive attitude.
- Proficient in listening to others' perspectives and responding thoughtfully to foster open dialogue.

Organisational skills and competences

- Efficient in prioritizing tasks and managing time effectively to meet deadlines.
- Ability in planning, executing, and overseeing projects from inception to completion.
- Skilled in efficiently using resources, including time, and materials, to achieve project goals.
- Strong focus on accuracy and thoroughness in executing tasks and reviewing work.
- Expertise in establishing clear, achievable objectives and creating actionable plans to meet them.

Computer skills and competences	<p>Programming Languages: C, C++, Shell scripting</p> <p>Networking: Basic understanding of networking concepts and protocols</p> <p>Operating Systems: Windows, macOS, Linux</p> <p>Tools and Technologies: Git, SQL, HTML, CSS, JavaScript</p> <p>Development Environments: Visual Studio, Eclipse</p>
Personal projects	<p>I have worked on several projects that show my commitment to software development and my ability to solve complex problems. Through these projects, I have improved my programming skills in C and C++, learned about algorithms, and enhanced my problem-solving abilities. Some key projects include:</p> <p><b>Libft</b> a custom C library that helped me understand memory management.</p> <p><b>ft_printf</b>, where I learned about formatted output.</p> <p><b>get_next_line</b>, which focused on dynamic memory allocation.</p> <p><b>push_swap</b> and <b>fractol</b>, where I worked on algorithms and graphics.</p> <p><b>minishell</b>, a shell program that taught me about process management and user interaction.</p> <p>These projects highlight my passion for coding and my desire to keep learning. You can see my work on GitHub: <a href="https://github.com/tndreka">https://github.com/tndreka</a>.</p>
